# Consumers Shouldering the Financial Burden of a Strained Market

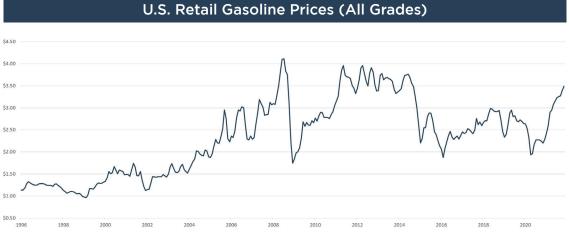

As inflation surges amidst rising prices and supply chain constraints across the country, the energy markets are seeing strong increases in mean and median company value across the upstream, midstream, and natural gas markets (see our Public Comps tables on pages 5-6).

The financial burden, driven primarily by the supply/demand imbalance, is largely placed on retail consumers. The average price per gallon of gasoline at the pump in the U.S. was \$3.33 as of December 12, according to data from AAA. There are no states in the country with an average cost of gasoline below \$2.90 per gallon.

The soaring cost of gas, used to heat almost half of U.S. households, is likely to continue into the winter months. Barring another pandemic lockdown, crude demand is expected to exceed pre-Covid levels in 2022. California plans to increase its use of natural gas in 2022 in expectation of extreme weather. The California Public Utilities Commission (CPUC) approved steps earlier this month to boost supplies of power generation. Meanwhile, CPUC has issued a proposal that will create the highest solar tax in the country and reduce the bill credit solar customers receive for selling electricity back to the grid, a move that will almost certainly increase its residents' dependency on natural gas.

Policymakers around the globe have attempted to address the oilsupply imbalance. OPEC+ agreed to release an additional 400,000 barrels per day to global supplies, starting in January 2022. The U.S. Department of Energy will release 50 million barrels from the Strategic Petroleum Reserve over several months.

Traditionally in a market landscape steered by high gas prices, oil and gas companies focus on their core business and drive exploration-anddevelopment projects. However, exploration-and-production (E&P) companies have cut spending on such projects in an effort to satisfy shareholders calling for capital discipline. These cuts. combined with high gas prices, have allowed oil and gas companies to spend more on developing renewableenergy projects. This is a prime opportunity to aggressively fund sustainability and non-carbon operations.

#### A Looming Setback for Solar Companies

The California Public Utilities Commission's (CPUC) proposed new rules for residential solar customers were met with sharp criticism from solar companies and green-energy proponents. Points of contention include new monthly fees and reduced payments for excess power exported back to the grid (net-energy metering), for both new and existing solar customers.

Solar companies and advocates argue that this is a step in the wrong direction for California, which leads the nation in solar adoption. The market responded accordingly, with solar energy stocks selling off sharply on the news. Sunrun (RUN) was down 14 percent, while SunPower (SPWR) and Sunnova Energy International (NOVA) fell 11 percent. California customers account for about 50 percent of Sunrun's projected growth.

CPUC stated that the changes are meant to encourage consumers to install battery storage systems alongside solar panels, so they can store the excess power generated by solar panels and feed it back to the grid when it is most needed. Some argue the proposal financially benefits utility companies.

While the proposal is not yet final (CPUC's vote is scheduled for January 27) it sets an uncomfortable precedent for the solar market.

Policy is just one of solar's nearterm challenges; tariffs and the strained global supply chain have also contributed to a slowdown in the industry's projected growth.

#### Public Valuations: Share Price (Growth Over Trailing 36 Months)

Note: Underlying companies within the data sets above are detailed on the following four pages.

### **Public Comparables Analysis – Upstream**

As of November 30, 2021 (USD in millions)

### Select Recent Energy Sector M&A Activity

Financing Date	Investor(s)/Buyer(s)	Target	Target Description	Deal Type	Value (\$M)
December-21	ConocoPhillips	Royal Dutch Shell (Permian Basin Assets)	Permian oil assets located in Texas, United States.	Corporate Asset Purchase	9,500
December-21	Energy Transfer	Enable Midstream Partners	Owner, operator, and developer of strategically located natural gas and crude oil infrastructure assets.	Merger/Acquisition	7,164
November-21	EQT	Covanta	Convertor of waste to energy, and other waste disposal and renewable energy production businesses.	Buyout/LBO	5,246
November-21	Parkland Fuel	Lynch Energy	Supplier of fuel and lubricants to individuals, gas stations, farms, and trucking companies.	Merger/Acquisition	Undisclosed
November-21	ADT Security Services	Sunpro Solar	Provider of rooftop solar systems intended to serve residential and commercial properties.	Merger/Acquisition	825
November-21	Southwestern Energy	GEP Haynesville	Operator of a natural gas liquids production company based in The Woodlands, Texas.	Merger/Acquisition	1,850
November-21	Parkland Fuel	Master Petroleum (Colorado)	Distributor of commercial fuel intended to serve the construction, agriculture, oilfield, and trucking industry.	Merger/Acquisition	Undisclosed
November-21	Chesapeake Energy	Vine Energy	Pure play natural gas company.	Merger/Acquisition	2,145
October-21	World Fuel Services	Flyers Energy	Fleet fueling, diesel exhaust fluid, lubricants, fleet fuel cards, and other petroleum solutions.	Merger/Acquisition	775
October-21	Liberty Utilities	Kentucky Power	Operator of an electric utility company based in Ashland, Kentucky.	Merger/Acquisition	2,846
October-21	Kohlberg Kravis Roberts	Clearway Community Energy	Provider of energy services, incl. district energy, combined heat and power and microgrids.	Buyout/LBO	1,900
October-21	Enbridge	Moda Ingleside Energy Center	Operator of a crude export terminal based in Ingleside, Texas.	Merger/Acquisition	3,000
October-21	SunPower	Blue Raven Solar	Provider of solar energy system installation services.	Merger/Acquisition	165
October-21	Coterra Energy	Cimarex Energy	Exploration and production company.	Merger/Acquisition	17,000
September-21	Archaea Energy	Aria Energy	Provider of renewable energy to utilities and other customers across the United States.	Merger/Acquisition	680
September-21	Southwestern Energy	Indigo Natural Resources	Operator of an independent natural gas company intended to supply gas.	Merger/Acquisition	2,700
September-21	Deutsche Windtechnik	Cooke Power Services (Wind Turbine Main- tenance Division)	Provider of wind turbine operations and maintenance business services.	Merger/Acquisition	Undisclosed
August-21	Kinder Morgan	Kinetrex Energy	Supplier of liquefied natural gas for transportation, commercial, industrial, agricultural, and power markets.	Merger/Acquisition	310
August-21	ArcLight Capital Partners	PSEG (Fossil Generating Portfolio)	6,750-megawatt fossil generating portfolio. The portfolio comprises 13 generation units.	Buyout/LBO	1,920
August-21	Blackstone and others	Escalante H2 Power	Developer of hydrogen to power projects.	Buyout/LBO	Undisclosed
August-21	HollyFrontier	Sinclair Oil	Operator of a vertically integrated oil firm from oil and gas exploration to motor fuel distribution.	Merger/Acquisition	2,600
July-21	EQT Production Company	Alta Resources	Developer of shale oil and gas assets.	Merger/Acquisition	2,925
July-21	Kinder Morgan	Stagecoach Gas Services	Owner of natural gas pipeline and storage business.	Merger/Acquisition	1,225
July-21	EQT	Cypress Creek Renewables	Developer of solar energy facilities.	Buyout/LBO	Undisclosed
July-21	Greencoat Capital	EDP Renewables (405 MW Wind Portfolio)	405-megawatt wind energy portfolio, comprising two wind farms in Illinois.	Buyout/LBO	720
June-21	Enlight Renewable Energy	Clēnera	Developer of solar and energy storage facilities throughout the United States.	Merger/Acquisition	433
June-21	Partners Group	Dimension Renewable Energy	Provider of renewable energy services.	Buyout/LBO	400
June-21	Independence Energy	Contango Oil & Gas	Oil and natural gas company, engaged in crudel oil and natural gas exploration, development, and exploitation.	Merger/Acquisition	5,700

Transaction led by DCA Partners

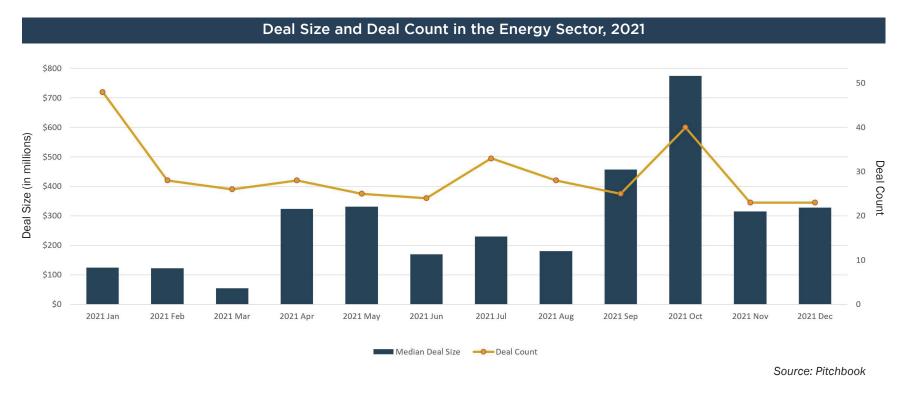

### The Resiliency of Renewables Being Put to the Test

The Energy industry has softened from post-pandemic consolidations and is now focused on selling off non-core assets and maximizing synergies between resources.

The \$17 billion merger between Cabot Oil & Gas Corp. and Climarex Energy (one of the more sizable transactions in Q4) reflects this trend, as the "companies are combining forces to pool resources and cut costs to better weather market downturns and the uncertainty over the energy transition," according to Dan Dinges, executive chairman of Houston-based Coterra Energy (CTRA), the moniker of the newly formed company.

Other oil companies, under pressure from investors, are shifting investments towards clean energy, and buyers are ready to snatch up available assets to lower production costs through economies of scale. Royal Dutch Shell Plc (RDSa.L) sold its Permian oil assets to oil producer ConocoPhillips (COP.N) for \$9.5 billion in September.

While the Renewables sector is growing faster than ever, investments may face near-term challenges as the market grapples with a strained U.S. supply chain, high commodity prices, and forthcoming policy changes. A rise in costs across the entire Energy industry may be the market's saving grace.

Energy Industry Report – Fall 2021

### **About DCA Partners**

#### **Growth Through Acquisition**

Our advisors help companies accomplish their growth objectives through a well-executed, acquisition-driven growth strategy that maximizes financial returns and mitigates risks—no matter how large, small, or specialized the transaction may be.

#### **Sell Your Business**

We bring technological sophistication, broad transaction experience, and deep industry expertise and relationships to every one of our sell-side engagements. The result is a world-class suite of services coupled with a unique and highly competitive transaction process that ultimately creates premium value for our clients.

#### Strategic Advisory

DCA serves some of the most respected companies in the region, providing guidance, strategic advice, and operational oversight to businesses across a wide range of industry sectors.

#### Get In Touch

We are happy to answer your questions and provide a confidential, complementary conversation regarding your strategic business goals.
